## To Confer Degrees.

The Scottish degrees from the fourth to the fourteenth will be conferred on a large class of local Masons at a meeting of the Clarksb. Lodge of Perfection to be held on the afternoon and evening of Friday, September 23, in the Masonic temple in this city.

Joseph M. Crouch, venerable mas-

ter of the local Perfection lodge, has been engaged for several days in maturing the plans for the fall meeting, and the meeting of September 23 is expected to be the most interesting and largely attended ever held by Scottish Rite Masons in this section.

## ADVANCE OF NORTH FRONTIER IS MAKING CHICAGO "SOUTHERN CITY"

The shift on this continent of Chicago to the southward as the northern frontier is pushed north and further north amounts now to five degrees of latitude, according to economists' data, and the road building program in northern Ontario rapidly is adding to the mileage. The more northland is added, the nearer relatively is Chicago to the Gulf of Mexico.

This year armies of men in a hundred summer camps are slashing open new roads through the timber by which the lumber crews, and at their heels the settlers, are pushing northward in the Temiskaming and Northern Ontario country, the remotest outposts of settlement in eastern North America. In the program of road building inaugurated by the province of Ontario in 1912 as many as seven thousand men have been employed.

Nowhere has the direct value to a region of good roads more plainly been shown than in this north country since the road building program was inaugurated; the benefits extend to social life and economic gains of the settlers and to the encouragement of settlement.

## CUT SOY BEANS AT THIS TIME SAYS MR. ZINN

Who Will Discuss "Curing of Soy Beans for Hay" at Next Meeting.

(By W. D. Zinn.)

The soy beans that were sown early will soon be ready to cut for hay. While the crop may contain a little larger per cent of digestible nutrients if allowed to form the pods, yet I am of opinion that the hay is a little more palatable if cut when in full bloom, and if cut then there is less danger of losing the leaves. Another advantage is that the days are longer and the beans will be easier cured. It will also enable the farmer to get the ground sown to some other crop sooner. It is very hard to lay down an iron clad rule for the cutting of bean hay for the conditions of the weather vary so greatly. If the weather is favorable it may be cut down and left in the swath for two or three days. It should be raked up before all the dew is off so the leaves will not shatter off. If the weather is still favorable, leave it in the windrow for a day or two, then put it in tall slender shocks and it stand two or three days when it may be put in the barn. It will take from eight to twelve days to cure it out well.

If the land is to be sown to grass, rye or wheat it is better not to plow it but cut it up thoroughly with a disc or cutaway harrow.

On next Saturday at the court house the county agent will discuss the "Curing of Soy Bean Hay." The agent will be out of the county holding institutes in Wood county the week beginning August 28.

## MARRIAGE LICENSES.

Marriage licenses have been issued to Frank Szabo and Julia Pile and Carl C. Atha and Rena M. Carpenter.

## NEW SOLDIERS

As a Result of a Visit of the Recruiting Officer to the Local Station.

Resulting from a visit of Captain J. E. McDonald, of Huntington, recruiting officer of the United States army, to the local station in charge of Sergeant Alexander W. Johnson, enlistments have been accepted as follows: David O. Jones, of Philippi, for infantry; and Stephen A. McDaniel, of Kingwood, for cavalry.

Both men were sent to the barracks at Columbus, O. From August 1 to August 22, inclusive, nine men applied at the local station for enlistment, four of whom were accepted for the following branches:

Two for cavalry, one for coast artillery and one for infantry. The five men rejected were turned down for the following reasons: Underweight, one; declined enlistment, one; minors, two; and married, one.

## FLATTERING

Offer to Become Educator at Gary, Ind., is Declined by Prof. Taylor.

BETHANY, August 23.—The hundreds of friends throughout West Virginia of Prof. W. B. Taylor, vice president of Bethany College, will be glad to learn that he has declined a very flattering offer to fill the chair of Biblical instruction in the celebrated Gary plan of education at Gary, Ind.

Dr. Taylor is president of the Farmers' State Bank at Wellsburg, and arrangements have been made to have him more closely identified with that growing institution hereafter. An office has been fitted for him at the bank and he will take an active part in its management.

## BICYCLE THEFT

Is Charged against Meigs Graves, of Glen Elk, and He is Held for Trial.

Charged with the theft of a bicycle from R. J. Jefferies, of the West End, Meigs Graves, a young man of Glen Elk, is being held for a trial before Magistrate R. Edward Kidd Thursday. Graves was jailed by City Detective L. L. White.

A warrant has been issued for Clarence Sneed, a young man of industrial, who is now in possession of the bicycle, and he will be arrested Wednesday afternoon. Sneed says he purchased the bicycle from Graves.

The alleged theft occurred about a week ago.

## 100 Years Old

"The kidneys play a most important part in causing premature old age and death—the more injurious the poisons passing through the kidneys the sooner comes decay"—so says a distinguished physician, who further advises all people who are past thirty to preserve the vitality of the kidneys and free the blood from poisonous elements, such as uric acid—to drink plenty of pure water—sweat some every day and take "Anuric" before meals.

This "Anuric" is put up in tablet form, and can be obtained at almost any drug store. For that backache, lumbago, rheumatism, "rusty" joints, swollen feet or hands due to uric acid in the blood, "Anuric" quickly dissolves the uric acid as hot water does sugar. It was discovered by Dr. Pierce of Buffalo, N. Y.

Prevent old age by simply sipping a cup of hot water every morning before breakfast, take a little "Anuric" before meals and live to be a hundred.—Advertisement

## DR. TURNER IS

EXTENDED AN  
OFFER IN WEST

To Take Charge of Bible Institute Work But Does Not Accept the Same.

The Young Women's Christian Association of Seattle, Washington, in conjunction with the Young Men's Christian Association of the same city has taken steps to establish a Bible school for the Northwest.

There are three outstanding Bible schools in the United States at the present time. These are Dr. R. E. Torrey's Bible school in Los Angeles, Cal., the Moody Bible Institute in Chicago, Ill., and the Bible Teachers' Training school of which Dr. W. W. White is president, in New York City.

The Young Women's Christian Association, of Seattle, has the finest city association building in the United States. It cost \$325,000 and has 4,000 members. The Seattle Young Men's Christian Association is also a very vigorous association.

The Rev. E. B. Turner, of Clarksb., has recently been asked to take charge of this Bible school and to develop it for the Northwest. It is a field of large opportunity but Mr. Turner has sent word to the Seattle officials that he can not leave Clarksb. at the present time.

## LEVY LAID

For the Year at An Adjourned Meeting of the City's Lawmakers.

At an adjourned meeting of the city council Tuesday night the annual levy of sixty-one cents was fixed. This is one and one-half cents lower than last year's levy.

The council directed the clerk to advertise for bids for paving West Pike street from its junction with West Main street to the West Fork river. Wire cut block is to be laid on five inches of concrete. The street is to be raised nine inches at the east end of the projected paving and cut down twenty-two inches in front of the Seaton property.

## SLIGHT GAIN

Only in the Spread of the Epidemic of Infantile Paralysis in New York.

NEW YORK, August 23.—New York's record breaking heat wave has failed to spread the epidemic of infantile paralysis. Only a slight gain was shown Wednesday in the number of deaths and new cases reported. During the twenty-four hour period ending at 10 a. m. the plague killed forty-two and 131 were stricken. This compares with thirty-nine deaths and 118 new cases during the same period Tuesday.

## "VERY WELL"

Is What Andrew Carnegie Says of Himself on Return from Trip.

BAR HARBOR, Me., Aug. 23.—Andrew Carnegie, who returned from his fishing trip Tuesday, caused word to be given to inquirers Wednesday that he was "very well." His secretary in discussing reports that the millionaire philanthropist was ill, asserted that on the contrary he was enjoying "very good health." Mr. Carnegie will leave Thursday on his yacht for a cruise along the coast of Nova Scotia.

## WETHEREL IMPROVING

And He May Recover from Injuries Sustained When Hit by Train.

J. Wetherell, a freight conductor working on the Short Line branch of the Baltimore and Ohio railroad, who was seriously injured early Tuesday morning when he was struck by fast passenger train No. 2, which was being detoured over that line on account of a small freight wreck at Long Run, is resting easier this afternoon. He was operated upon Tuesday and since that time he has been conscious part of the time. His chances for recovery are much brighter than Tuesday.

## KANSAS CITY

Gets the Next Annual Convention of the Federation of Catholic Societies.

NEW YORK, Aug. 23.—The annual convention of the American Federation of Catholic Societies adjourned Wednesday, twenty-four hours sooner than had been planned originally. The excessive heat was the cause for shortening the session.

John Whalen, of New York, the president, and all other officers were re-elected, except Joseph T. Blannan, of Boston, sixth vice-president, who was succeeded by Dr. Peter Ganz, of Louisville. The convention will meet in Kansas City, Mo., next year.

## ORDERED BACK

To Work Are 200 Striking Sagger Makers in Potteries by the Brotherhood.

EAST LIVERPOOL, O., Aug. 23.—The National Brotherhood of Operative Pottery Wednesday ordered 200 striking sagger makers in the potteries of this district to return to their shops next Monday morning on the ground that the strike was not sanctioned by the brotherhood, of which the sagger makers are an underlying union. The general war potteries have not been affected by the strike, but if the sagger makers refuse to obey the brotherhood it is feared 5,000 skilled workmen will be rendered idle.

## MYSTERY

Similar to the Buffum Murder Case in New York State is Being Probed.

LITTLE VALLEY, N. Y., Aug. 23.—County officials are investigating what they believe is a poisoning mystery remarkable in its coincidence with the Buffum murder case here three years ago. Willis Buffum died in August, 1913, from arsenic poisoning. His wife is serving a twenty-year term in Auburn prison.

Now, according to physicians attending him, Elmer Blotner, 32 years old, who took over the Buffum farm, is suffering from arsenic poisoning, showing the same symptoms as did Buffum. He has been ill since May.

## FRANCHISE GRANTED.

The county court Wednesday granted the Central District Telephone Company a franchise to string telephone lines in conduits underneath the floor of the East Main street bridge.

## HEAVY ASSAULTS.

LONDON, Aug. 23.—Two heavy assaults on the positions newly won by the British south of Thiepval on the Somme front were made Tuesday night by the Germans. They gained a footing in the British trenches but were driven out again, the war office announced Wednesday.
